KITCHENS COMPLETE REMODELING BY *Patete*

Kitchens are arguably the most active part of any home. Families spend countless hours in the kitchen preparing their meals, eating them, and sometimes just socializing. The kitchen has become the family center in the American home, and so it makes all the sense in the world that you should want your kitchen to look the way you feel.

In Pittsburgh, kitchen remodeling tends to only happen once every 12-15 years, and we understand how big of a commitment that can be to any homeowner considering it. There are so many factors, so many variables that affect each other, such as the cabinets, stove, countertops, wall color, and flooring all working together to give you that elegant kitchen of your dreams.

As kitchen remodelers with over 50 years of experience in Pittsburgh, we understand just how important your kitchen is to you, and we take great care and pride in our work. Let your imagination run wild with visions of kitchen cabinets and kitchen remodels, and let us do the work. With a strong history and an outstanding reputation with our previous clients, there are no worries when remodeling your kitchen with Patete.

BATHS

COMPLETE REMODELING

BY *Patete*

Just about anyone these days can claim to be a bathroom designer, even if they don't have one day of experience. It's hard to find someone to do the job right for you. Your bathroom is one of the most important spaces in your house, so you need to find a company that has a proven record of excellence. If you are a homeowner with a bathroom remodeling project, Patete Kitchen and Bath Design Center is the company you can rely on to solve your remodeling problem.

We have been in Pittsburgh for over 50 years, and from the beginning, our mission has always been to provide exceptional design and installation services for any size and scope bathroom remodeling project. We see you through every phase of your bathroom remodeling.

Beginning with the initial design, moving into demolition of your existing bathroom, and finally installing your new bathroom, at every step of the way we have the best team in the industry to ensure that you get exactly the bathroom of your dreams.

Need some inspiration? Come to our showroom or we can come to your home for a consultation. We take all of the measurements to ensure a perfect fit. Our designers can then take your wish list and lay out all of the elements for a functional and beautiful new bathroom. We present you with a plan that you can approve or adjust, making sure at every step in the process that you get the bathroom that fits your lifestyle, your taste, and your pocketbook.

And best of all, we are never satisfied until you are. We want you to enjoy your new bathroom for years to come. So visit our showroom today, and let us help you get started with your bathroom remodeling plans.

PIETRA COLLECTION BY Patete

The Pietra Collection by Patete that offers new designs with the look of marble and granite. Dozens of choices from a slate-look to tile patterns that are grout-free. They are all low maintenance, easy to clean and affordable.

Whether you're considering a complete new bathroom, a tub to shower conversion or just a tub or shower replacement, Patete Kitchen and Bath Design Center has something for everyone.

AGING IN PLACE

As we age, it gets harder to do a lot of the activities we were once able to do with ease, and we tend to take those things for granted. Walking, bending and climbing are movements that we think are simple now, but they only get more difficult when we reach our Golden Years.

One daily activity that you may not realize will become a more difficult task in the future is the ability to take a bath or shower on your own. Lifting your legs to step over the ledge and into the tub may not be possible. Even if your bathroom already has a shower with a walk-in feature or a low ledge, standing for long periods of time will not be comfortable, and leave you vulnerable to falls.

So, what is the solution to avoiding potentially dangerous situations while trying to bathe? Patete Kitchen and Bath offers a philosophy to bathroom remodeling Pittsburgh residents love: Aging in Place.

By remodeling your bathroom to suit your changing lifestyle, you won't have to give up your independence. Patete builds custom-designed bathrooms that feature a variety of accommodations and accessibilities with a fashionable flair that will reflect your tastes and personality.

Some characteristics of an Aging in Place bathroom may include:

- Bathtub converted into walk-in shower or barrier-free showers and complete wet rooms
- Accessible cabinetry
- Walk-in bathtubs

WE TREAT YOUR HOME LIKE OUR OWN

We take superb care to ensure that our installation in your home is as carefully done as our design and manufacturing. Our people are carefully trained to do their work quickly, accurately and with a minimum of disturbance to your home and your schedule. Our #1 goal is customer satisfaction.

We take care of every aspect of your job from the cabinets, countertops, sinks, faucets and hardware, to carpentry, tile work, plumbing, electrical, painting and wall covering in kitchens and baths. We do it all from floor to ceiling.

At Patete, you get a professional interior designer who works with you one on one to help you decide on the material selection and color coordination. In addition, you won't be running all over the place trying to make choices all by yourself, because it's all in our selection rooms. You won't have to go anywhere else.

We start with a consultation in your home. We need to know the measurements of your room, your lifestyle, and family

size to determine your precise requirements, add our suggestions and generate them into a drawing to provide a visual rendering for your approval.

One-of-a-kind designs in kitchens and baths created to help you visualize a new level of beauty and convenience for your home. Whether your choice is contemporary, traditional or falls somewhere in between, our displays will help you visualize that special look you want to achieve in your home.

Custom doesn't necessarily mean expensive. Custom means quality. We do projects in every neighborhood in the tri-state area. You name the neighborhood and we have worked there!

Patete offers you a professional kitchen and bath designer with years of experience and thousands of designs under his/her belt.
