

## Pittsburgh's Most Affordable Custom Home Builder & Remodeler

**W**hen looking for a custom home builder or remodeler, you're really taking a leap of faith. Fortunately, you can rest assured that your experience will be one of quality, professionalism, and affordability.

Colella Construction, Inc., has been building in the Pittsburgh metropolitan market for over nine years and owner Brandon Colella has been in the home-building industry for more than 20 years, creating dream homes for his customers. Whether building in an existing development, on your own lot, or simply giving your home a facelift, Colella Construction, Inc., can do it on time and on budget.

"We've built homes ranging from 1,700 square feet up to more than 5,800 square feet, and regardless of the size of the home we're building, we pride ourselves on our attention to detail and customer service," Colella says. "Plus, we like to think of ourselves as the most affordable custom home builder in Pittsburgh. Many of the things that other builders consider to be upgrades, we include as part of our base package, giving homeowners more options and helping them stretch their dollar further."

Some of the things you'll find standard in a Colella custom home include hardwood flooring, porcelain tile work and granite in the kitchens and bathrooms. All the building materials and finishes are sourced from local and small business suppliers, and homeowners are in the loop on the process from the design phase until the keys are turned over to them. Pricing is given to homeowners up-front and Colella Construction, Inc., stands by the initial quote, so there are no surprises at the end of the job.

Because of the quality of the work and dedication to customers, Colella Construction, Inc., is an approved builder for a number of the developing plans in the Pittsburgh suburbs, including Chamberlain Ridge and Inglefield Estates in the West Jefferson Hills School District, Bonnie Dell Acres in South Park, and Meadow Ridge in Peters Township. Colella Construction Inc. is proud to announce that they are now an approved builder in two of Washington County's premier developments—Piatt Estates located in the Meadowlands and Ridgewood Heights located in Cecil. The company has built dream homes for customers throughout the South Hills area.

Colella Construction, Inc., works with an architect who can ensure that your home not only looks good throughout, but fits your lifestyle and your family's needs. There's never any shortage of creativity available to you throughout the process.

"It's a journey when you're building a custom home," Colella notes. "People will find that perfect lot, and say, 'OK, now what?' They may have an idea or they may be totally open to suggestion, and that's

the beauty of building a custom home — you are tailoring a house that is perfect for the needs and wants of the buyer and will be something they will enjoy every day for as long as they're in it."
